Data from some gravestones reported by Kliethermes disagreed with data reported in the death records. These gravestones were carefully checked in December 1995 by rubbing snow into the inscriptions to make the writing easier to read. The results are listed here under the original data reported by Kliethermes as:

**Corrected data:** data that is different than originally reported.

**Verified data:** data that is the same as originally reported but disagrees with other data.

**New entry:** data from 10 gravestones which are not in the original listing.

Only those gravestones noted as "corrected" or "verified" were checked. Ten gravestones were found that were not recorded in Kliethermes' book. They are included and labeled "new entry."

Rows are numbered from the bottom of the hill going up.

Stones are numbered left to right as seen facing the cemetery from the bottom.

9. ??? (Last name not readable), Gertrude, born 1834 - 17 March 1864
   (stone is broken through the middle of the name)
   Gravestone reads: Hec...eier, probably Heckemeier.
   Or could also be: Mer...eier, which could be Mertensmeier.
   Since the death date on the stone matches the death record for Gerhard Heckemeier, we assume that Heckemeier is the correct match.
